MISSION OF THE PROJECT

- The main objective of building this project is to sell the organic vegetables that are healthy at affordable prices.
- This will help many poor people who are unable to find the veggies for lower prices and many sellers can sell their goods for reasonable prices

INTRODUCTION

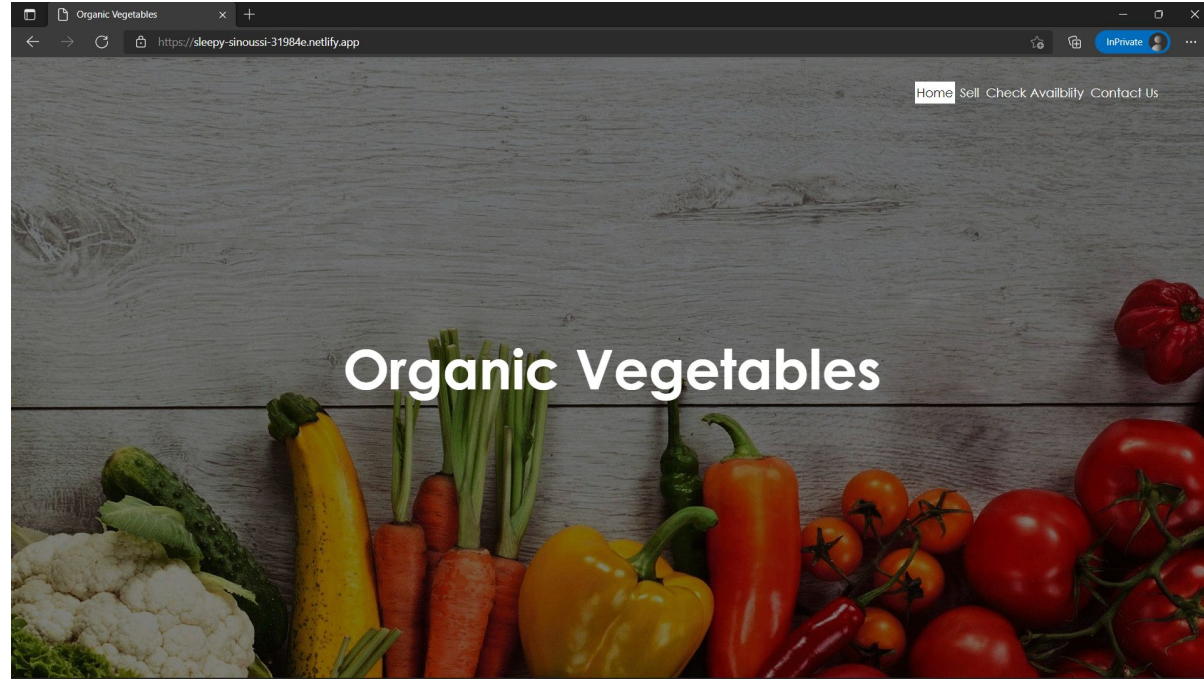

- Our website provides the details and products available so that the customers can buy them. It allows the users to buy or sell the Organic Vegetables.
- In case of queries, the customers can write to us through the mail.
- This helps the customers to know the actual reasonable prices so that they buy online instead of paying high prices outside.

USES OF ORGANIC VEGETABLES

Achievements :

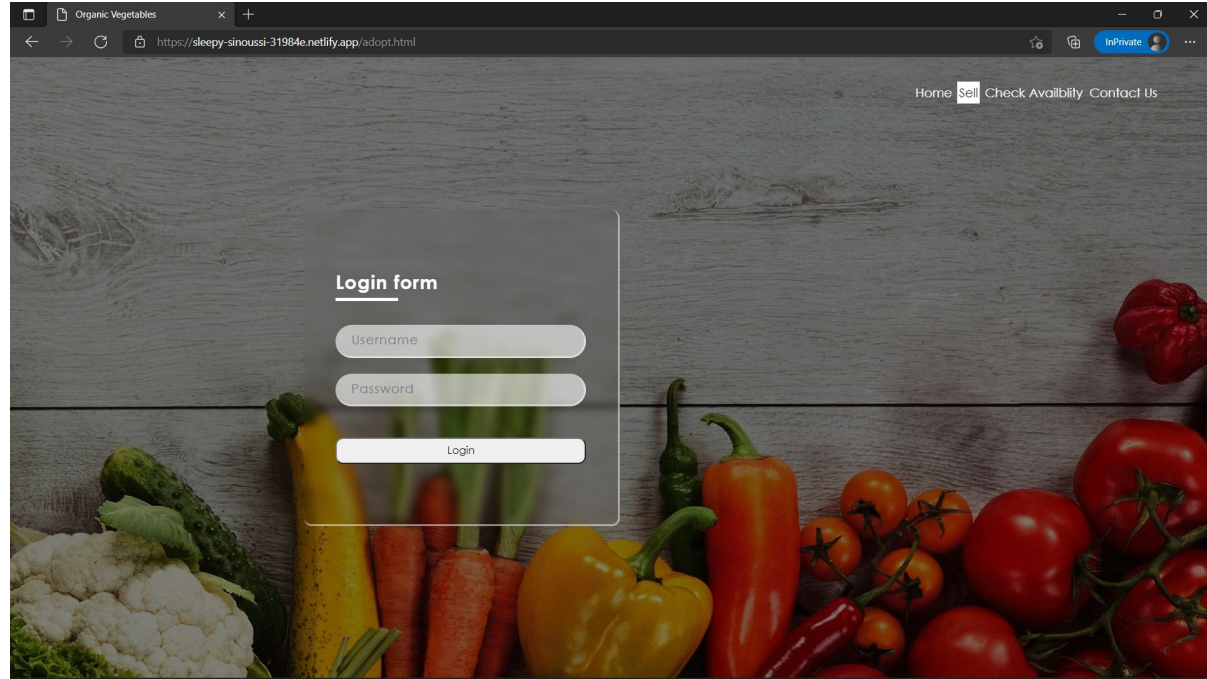

To buy the organic vegetables from the seller.

To sell the organic vegetables for the customers for reasonable price.

SELLING VEGGIES

- Seller will get a username and password while registering for the first time.
- Each time adding the new goods they have to login and update the prices and the amount of organic vegetables.

CODE IN HTML

```
<html lang="en">
<head>
  <meta charset="UTF-8">
  <meta http-equiv="X-UA-Compatible" content="IE=edge">
  <meta name="viewport" content="width=device-width, initial-scale=1.0">
  <title>Organic Vegetables</title>
  <link rel="stylesheet" href="css/style.css">
</head>
<body>
  <header>
    <div class="main">
      <ul>
        <li class="active"><a href="#">Home</a></li>
        <li><a href="sell.html">Sell</a></li>
        <li><a href="avail.html">Check Availabilty</a></li>
        <li><a href="contact.html">Contact Us</a></li>
      </ul>
    </div>
    <div class="title">
      <h1>Organic Vegetables</h1>
    </div>
  </header>
</body>
</html>
```

SOME CSS PART

```
*{  
  margin: 0;  
  padding: 0;  
  font-family: Century Gothic;  
}
```

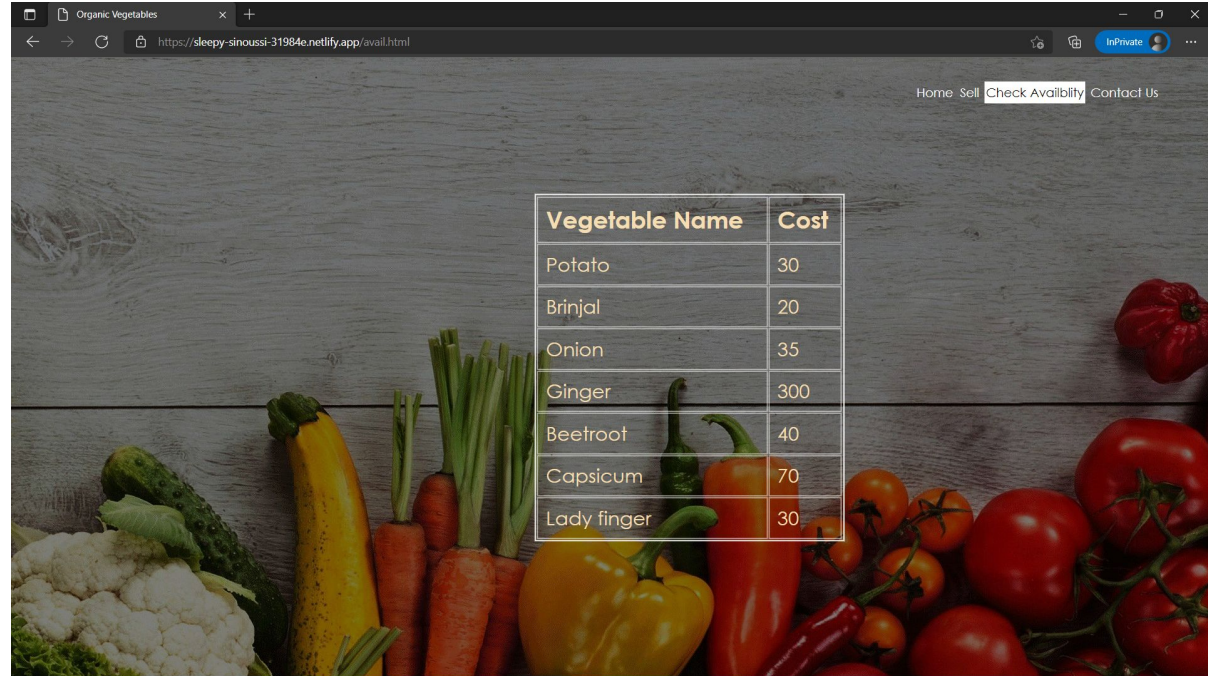

```
header {  
  background-image: linear-gradient(rgba(0,0,0,0.5), rgba(0,0,0,0.5)), url("https://wallpapercave.com/wp/wp3820394.jpg");  
  height: 100vh;  
  background-size: cover;  
  background-position: center;  
}
```

```
ul {  
  margin-top: 35px;  
  float: right;  
  list-style-type: none;  
}
```

```
ul li {  
  display: inline-block;  
}
```

RATES AND AVAILABILITY

- Customer can know the prices of each kind of vegetable that is available.
- If there is requirement for the vegetable customer can contact us with the quantity and the location. That will be served as fast as possible.

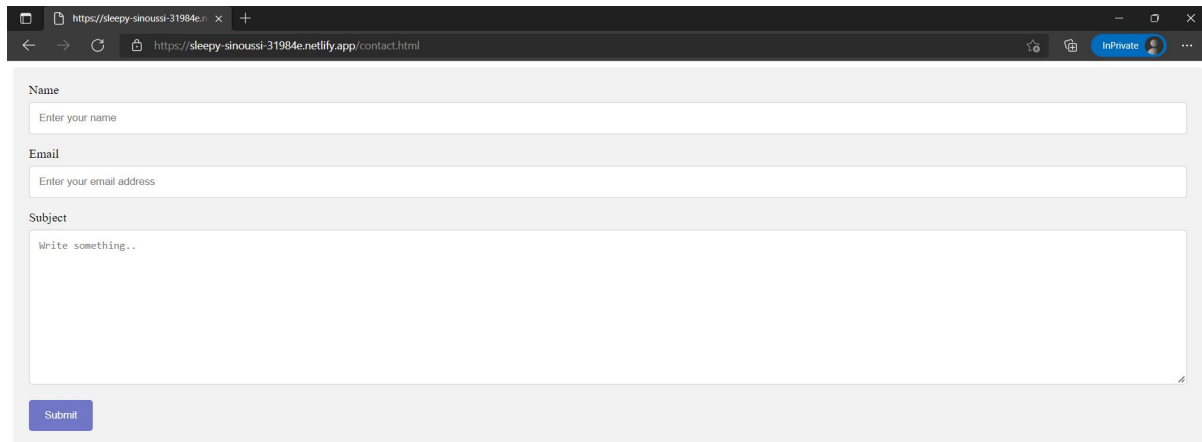

The screenshot shows a web browser window with the title 'Organic Vegetables'. The address bar displays the URL 'https://sleepy-sinoussi-31984e.netlify.app/avail.html'. The page features a navigation bar with links: 'Home', 'Sell', 'Check Availability', and 'Contact Us'. The main content area displays a table of vegetable prices over a background image of various fresh vegetables like carrots, tomatoes, and bell peppers. The table has two columns: 'Vegetable Name' and 'Cost'.

Vegetable Name	Cost
Potato	30
Brinjal	20
Onion	35
Ginger	300
Beetroot	40
Capsicum	70
Lady finger	30

ANY QUERIES..?

This contact us page helps to make contact with us and can clarify the questions and their problems very quickly.

A screenshot of a web browser displaying a contact form. The browser's address bar shows the URL `https://sleepy-sinoussi-31984e.netlify.app/contact.html`. The form itself is light gray and contains three input fields: a text field for 'Name' with the placeholder 'Enter your name', an email field for 'Email' with the placeholder 'Enter your email address', and a larger text area for 'Subject' with the placeholder 'Write something..'. A purple 'Submit' button is located at the bottom left of the form.

Technologies used in this project

- HTML
- CSS
- VANILLA JAVASCRIPT

HTML: HTML is hypertext markup language which is use to make the skeleton of the web page. This will help to make the abstract view of the project

CSS: CSS is used to style the HTML page and add coloring to the web page.

JAVASCRIPT: javascript is used to make the inner logic and business logic for the project which is used to store and retrieve the particular data in the page.

CONCLUSION

This project will pretty much helpful for those who are willing to buy and sell the organic veggies online which are very good for one's health. Moreover it is very user friendly for everyone.
